HOTEL SHINY GRAND

Hornbill Festival, 1-10 December 2026

Kisama, Nagaland. Getting there is a flight into Dimapur or a long road, so the plan starts in Guwahati.

The shape of the trip

- The festival runs ten days at Kisama Heritage Village near Kohima.
- Most travellers route through Guwahati, then fly to Dimapur or drive.
- December is also the start of the fog window at LGBI Airport.

Fog window, again

- 49.7% of December-to-February reports showed visibility below 1.5 miles (2.4 km).
- Morning departures are the exposed ones. If you have a Dimapur connection, take the later flight or the buffer night.

Two-night pattern that works

- Night 1 near the airport, then an unhurried morning departure.
- Return night at the same place before your flight home.

Kohima in December

- Cold nights; pack for single-digit temperatures in the hills.
- Book Kohima and Kisama accommodation early; December is their peak.
- Keep a day spare for the return to Dimapur.

Hotel Shiny Grand

- 35 rooms, airport side, 24/7 front desk for early departures.
- Free luggage storage while you travel on to Nagaland.
- Late checkout up to 3 hours free.
