HOTEL SHINY GRAND

GST on hotel rooms and banquet bills in India

The tax line is where quotes stop being comparable. Ask one question and the numbers line up.

The single question

- Ask whether the quoted price includes taxes.
- A ₹3,000 room and a ₹3,000 room are different rooms if one is plus tax.

Rooms

- A GST rate applies on top of the room tariff at this hotel: 5%.
- Rooms are quoted per night.
- Ask for the tax-inclusive total for your dates before you compare two hotels.

Food and catering

- Catering and restaurant bills carry their own tax treatment, and menus may be quoted either way.
- For a wedding, get the per-plate price and the hall rent on the same page, each marked with its tax status.

Why it matters at 100 guests

- On a hundred plates, a 5% difference is a real number.
- The compare-at-a-glance method: plate rate times peak headcount, plus hall rent, plus tax, plus 10 to 15 percent overrun.

Hotel Shiny Grand

- Rooms from ₹2,500 a night direct, plus 5% tax.
- GST invoicing is available for corporate bookings.
- Ask for a single written quote covering catering, hall and tax.
